sale of hosiery. These evils are cancellations, returns and allowances, extra dating, special discounts, etc. They have been prevalent for years, and as time goes on they are increasing rather than diminishing. All hosiery manufacturers complain of the practices, but they have never taken any positive steps to eliminate them, the report states.

Three of the most important chapters of the report are taken up with an exhaustive study of capital, profit and turnover, cost and profit by establishments, and cost and profit by specified units. Statistical tables form the bulk of this part of the work. There are also chapters dealing with cost accounting, manufacturing processes, machinery used in the industry, working conditions, and suggestions for increasing foreign trade.

The report has been designated Miscellaneous Series No. 31, and is sold by the superintendent of documents, Washington, and by the district and co-operative district offices of the bureau of foreign and domestic commerce at a nominal price of twenty-five cents a copy.

"Pan-Americanism is an expression of the idea of internationalism. America has become the guardian of that idea, which will in the end rule the world. Pan-Americanism is the most advanced as well as the most practical form of that idea. It has been made possible because of our geographical isolation, of our similar political institutions, and of our common conception of human rights.
